➤ Program Outlook

The Diesel Systems Technician program provides students with the technical knowledge and skills for employment as Truck, Bus, and Diesel Mechanics in the Heavy Duty Truck and Bus Repair Industry. Instruction includes a combination of classroom theory and practical experience. The program also offers supplemental training for persons previously or currently employed in Heavy Duty Truck and Bus Repair occupations. This program is certified by the National Automotive Technical Education Foundation (NATEF). Students are eligible to join SkillsUSA.

➤ Length of Program

The average length of this program is 1800 hours (approximately 18 months) for adult attending full-time. Actual time is dependent upon enrollment status (full-time/part-time) and the length of time the student requires to achieve competencies. This program contains several occupational completion points designed to prepare students for various entry level jobs within this occupational area.

➤ Entrance Requirements

Students must be at least 16 years old and not attending high school, application, and interview by a guidance counselor. Fees for supplies and textbooks are required.
