➔ Program Outlook

The Heavy Equipment Operations Technician program provides students with the technical knowledge and skills for employment as an operator in the Heavy Equipment industry. Instruction includes a combination of classroom theory and practical experience. Students will be instructed in digging, ditching, sloping, stripping, grading, backfilling, clearing excavating, equipment maintenance and safety.

➔ Length of Program

The Heavy Equipment Operations Technician program consists of 1200 hours. However, the school is currently offering Occupational Completion Points A (Heavy Equipment Maintenance) and B (Tractor Operator) and C (Off-road). The average length of this program is 600 (approximately 6 months) hours for full-time students.

➔ Entrance Requirements

Students must be at least 16 years old and not attending high school, application, and interview by a guidance counselor. Fees for supplies and textbooks are required.
